**PRODUCT(S)**

**WRAPSHIELD SA**<sup>®</sup> SELF-ADHERED Water Resistive Vapor Permeable Air Barrier Sheet Membrane

**PROJECT DESCRIPTION**

The 12-story Hyatt Regency Lake Washington at Southport features over 100,000 sq.ft. of WrapShield SA Self-Adhered Water Resistive Vapor Permeable Air Barrier Sheet Membrane. Seco Development has confidently used VaproShield products on many of their other projects. For this project they chose the WrapShield SA Self-Adhered for its high drying capacity, reliability and because the product can withstand in the windy, wet weather conditions of Washington.

The 347-room luxury hotel is located on the shores of Lake Washington and will be the first luxury hotel near Seattle's Sea-Tac International Airport. Construction began in October of 2014 and is expected to open in June of 2017.

Over 100,000 sq.ft. of WrapShield SA Self-Adhered is being installed on the Hyatt Regency Hotel in Seattle, WA.

The 12-story hotel is projected to open in June of 2017.

WrapShield SA Self-Adhered was chosen for its ability to be applied in the windy, wet weather conditions of Washington.
